Book Description. This version of the Modern Philosophy textbook was created on August 28, 2013 as part of the BC Open Textbook project. Description from original book author Walter Ott. This is a textbook (or better, a workbook) in modern philosophy. It combines readings from primary sources with two pedagogical tools. Paragraphs in italics introduce figures and texts. Numbered study questions (also in italics) ask students to reconstruct an argument or position from the text, or draw ...

PHYSICAL FOUNDATIONS OF COSMOLOGY Inflationary cosmology has been developed over the last 20 years to remedy serious shortcomings in the standard hot big bang model of the universe. Taking an original approach, this textbook explains the basis of modern cosmology and shows where the theoretical results come from. The book is divided into two parts: the first deals with the homogeneous and ...
