

history of africa shillington pdf

The history of Africa begins with the emergence of hominids, archaic humans and “at least 200,000 years ago” anatomically modern humans (Homo sapiens), in East Africa, and continues unbroken into the present as a patchwork of diverse and politically developing nation states.

History of Africa - Wikipedia

Africa has the world's oldest record of human technological achievement: the oldest stone tools in the world have been found in eastern Africa, and later evidence for tool production by our hominin ancestors has been found across Sub-Saharan Africa.

History of science and technology in Africa - Wikipedia

The history of the world is about the study of the cultural achievements of the entire human race. This includes the time from prehistory to the end of the 20th century and excludes natural history before the development of human beings.
