Papers below that will be published according to the received dates of their accepted version (day/month/yr), are listed in alphabetical order by first named author.

Journal of the Mathematical Society of Japan (JMSJ)

M-theory is a theory in physics that unifies all consistent versions of superstring theory. The existence of such a theory was first conjectured by Edward Witten at a string theory conference at the University of Southern California in the spring of 1995.

M-theory - Wikipedia

In general, a curve is defined through a continuous function: $\hat{\alpha}^t$ from an interval I of the real numbers into a topological space X . Depending on the context, it is either or its image $(\)$ which is called a curve.
