I have found this book to be an excellent way to learn the material for a rigorous treatment of probability and statistics, as it would be covered in UC Berkeley Stat 134/135 or Harvard Stat 110/111.

Probability and Statistics: Pearson New International

Statistics is the theory and application of mathematics to the scientific method including hypothesis generation, experimental design, sampling, data collection, data summarization, estimation, prediction and inference from those results to the population from which the experimental sample was drawn.

Founders of statistics - Wikipedia

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
