Healthcare-associated infections | HAI | CDC

Interdigital cysts sometimes present as noticeable dorsal lesions accompanied by licking, chewing, or lameness, while in other cases, the condition is perceived by owners as simply a cosmetic flaw.

Canine Interdigital Follicular Cysts | Clinician's Brief

Cases of Duty to Warn or Protect. The practice of warning an identifiable victim of the risk of violence, adequately determined through clinical assessment, is the model that is discussed and promoted in the professional literature and is in greatest agreement with the Tarasoff principle itself.

Warning a Potential Victim of a Person's Dangerousness

This is an evidence-based educational service of the American Academy of Neurology. It is designed to provide members with evidence-based guideline recommendations to assist with decision-making in patient care.

Detection, Diagnosis And Management of Dementia

While antibody mediated hyper-acute vasculitic rejection is rare in liver transplant recipients, acute and chronic rejection have clinical significance.

Acute and Chronic Rejection After Liver Transplantation

a Full sample based on 277 patients with a stated preference at 3 months and adequate information to assess goal-concordant care at baseline. Complex probit regression model with patients clustered by treating clinician (n = 114 clinicians) and adjusted for treatment preference (life extension or comfort care) at 3 months and concordance at ...

Effect of a Patient and Clinician Communication-Priming

A HR provides an estimate of the ratio of the hazard rates between the experimental group and a control group over the entire study duration. The hazard rate is the rate of patients experiencing the event of interest over a short time interval within each of the treatment arms in the study.
