

### **the destructors and other pdf**

Destructor syntax. In C++, destructors have the same name as the class with which they are associated, but with a tilde (~) prefix. In D, destructors are declared with name ~this() (whereas constructors are declared with this()).

### **Destructor (computer programming) - Wikipedia**

Constructors and destructors. Constructors are special methods, used when instantiating a class. A constructor can never return anything, which is why you don't have to define a return type for it.
