

the individualized music therapy pdf

Music therapy is the use of music to improve health or functional outcomes. Music therapy is a creative arts therapy, consisting of a process in which a music therapist uses music and all of its facets—physical, emotional, mental, social, aesthetic, and spiritual—to help clients improve their physical and mental health.

Music therapy - Wikipedia

The Individualized Education Program, also called the IEP, is a document that is developed for each public school child who needs special education.

Individualized Education Program - Wikipedia

In this study, the input is Japanese music and the output is human subjective and objective responses. Based on this scheme, we discuss the most effective music therapy for dementia patients using Japanese music in this study.
